

**NIGERIA RED MEAT**  
PARTNERSHIP

### About the Nigeria Meat Partnership (NiMeP)

*NiMeP is a private sector led but Government enabled partnership that consists of abattoir owners, feedlot owners and operators, regulatory agencies and service providers. Our purpose is to produce standard merchantable meat for the Nigerian and export markets. CDI conceived and manages the NiMeP in partnership with a technical consortium as a performance-based project to produce and trade Nigerian meat products in the global markets.*

*For 2026 trading year, NiMeP aims to produce 35,200 metric tons of red meat and generate US\$246 million revenues from export sales to the Saudi Arabian market.*

**NIGERIA RED MEAT  
PARTNERSHIP**

## **Members of the Nigerian Red Meat Partnership**

# BENEFITS OF THE RED MEAT PARTNERSHIP

## What members get from the partnership:

Market intelligence reports & opportunities to enter new export markets

Participate in large export orders e.g. the Saudi request for 176,000 MT of red meat

Supply chain improvement & efficiency

Benchmarking our supply chain with competitors i.e. Botswana, Namibia, Kenya, etc

Linkages within our supply chain (feedlots linked to abattoirs, etc.)

Benefit from new research and development, innovations; new trials and new discoveries

Access to funding (debt; equity; grants, concessionary loans, etc.)

Government supportive policy (e.g. policy framework on Compartmentalization of feedlots and securing international certification to trade meat internationally)

**MEMBERSHIP IS BY INVITATION, AFTER PROFILING**
